

**Employer's Handler & Worker Roster**  
**for**  
**Worker Protection Training on Farms, Forests, Greenhouse and Nurseries**

**Instructions:**

*This form may be used by owners, operators and supervisors of farms, forests, greenhouses and nurseries who train their handlers and workers on the Worker Protection Standards (WPS).*

*The trainer should keep one copy of this roster and training information in his/her file for two years and send copies to the **Tennessee Department of Agriculture and The University of Tennessee Pesticide Safety Education Program office:***

Tennessee Department of Agriculture  
Certification and Licensing  
Box 40627,  
Nashville, TN 37204

University of Tennessee  
E&PP, PSEP Office  
2505 E.J. Chapman Drive, 370 PBB  
Knoxville, TN 37996-4560

An exam is not required for handlers or workers, nor are they required to be certified to take the training.

A qualified (certified) WPS trainer in Tennessee is one who is certified as a Private Applicator, Commercial Applicator or has attended WPS Train-The-Trainer Training. Training for WPS Trainers is offered by The University of Tennessee Extension Service, and is highly recommended. Training is also available online through Iowa State Extension at: <http://www.extension.iastate.edu/workerprotection/>
